SUMMARY

Full Stack Developer building production-ready web applications with React, Node.js, Express, and PostgreSQL. Experienced across the stack — from REST API design to responsive UI implementation — with a product-focused mindset shaped by a UI/UX design background.

EXPERIENCE

Junior Web Developer

Jul 2026 – Present

AptechUK • Remote

- Built responsive, client-facing web applications using React, JavaScript, and Tailwind CSS.
- Developed and deployed backend services with Node.js, Express, and PostgreSQL on Vercel and Neon.
- Debugged and shipped feature improvements across live client projects, supporting website optimization.

Full Stack Developer Intern

May 2026 – Jul 2026

ScholarHat • Remote

- Built full-stack features end-to-end using React on the front end and Node.js/Express on the back end.
- Collaborated with senior engineers to design and integrate REST APIs with production databases.
- Delivered scalable, maintainable code through code reviews and agile sprint cycles.

UI/UX Design Intern

Jun 2025 – Aug 2025

ScholarHat • Remote

- Designed and delivered 80+ marketing assets while maintaining consistent, on-brand visuals.
- Translated Figma designs into responsive React interfaces for production-ready web pages.
- Collaborated with designers and developers to improve UI consistency and development handoff.

PROJECTS

ConsultFlow

Jul 2026

Lead Conversion & Booking Platform

React • Tailwind CSS • Supabase • PostgreSQL

[Live Demo](#) | [GitHub](#)

- Architected a full-stack booking platform to replace manual lead qualification with a guided multi-step flow.
- Designed a centralized admin dashboard for real-time specialist matching and appointment oversight.
- Modeled a Supabase/PostgreSQL schema to keep appointments, specialists, and leads in sync in real time.
- Built a reusable React component library to keep the UI consistent across the platform.

CollabDesk

Jun 2026

Client Collaboration Platform

React • Node.js • Express • PostgreSQL • JWT

[Live Demo](#) | [GitHub](#)

- Designed a role-based collaboration platform to unify fragmented project and client communication for agencies.
- Implemented JWT-based authentication and access control to separate Admin and Client permissions securely.
- Built REST APIs with Express.js and PostgreSQL to manage projects, deliverables, comments, and users.
- Structured reusable React components to keep the codebase maintainable as features scaled.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: PostgreSQL, Supabase

Tools: Git, GitHub, VS Code, Postman, Vercel, Figma, WordPress

EDUCATION

Bachelor of Information Technology

2023 – 2027

Dev Sanskriti Vishwavidyalaya

SGPA: 8.88 / 10
